

Senior plc announces multi-year contract with Spirit AeroSystems

Senior plc, the international manufacturer of high technology components and systems ("Senior"), announced today that its subsidiary, Senior Aerospace UPECA (Malaysia), has won a five-year contract with Spirit AeroSystems. The contract, which will commence in 2019, is to provide machine details and subassemblies on Boeing commercial aerospace programmes. Senior's capabilities in Malaysia provided the best overall value proposition to Spirit AeroSystems on a package of medium to complex machined parts and subassemblies.

Joe Mockus, Divisional CEO of Senior Aerospace Structures, commented: "Spirit AeroSystems is a very important customer to Senior Aerospace and we are delighted with this significant new contract award. Senior and Spirit have an excellent partnership across three continents and we continue to work together to offer competitive solutions to help grow our respective businesses."

About Senior Aerospace UPECA

Senior Aerospace UPECA manufactures and assembles build-to-print structural components for the civil aerospace industry. Primarily a machining facility located in cost competitive Malaysia, it provides complete manufacturing capability supported by extensive in-house NADCAP approved NDT and Treatment capabilities.
