## **Senior plc announces new supply contracts with Honda**

Senior plc (“Senior”), an international manufacturer of high technology components and systems, announced today that Senior Flexonics has been awarded new contracts to supply Honda with exhaust flexible connectors for the automotive manufacturer’s 1.5L and 2.0L gasoline engines.

Honda has been a pioneer in developing high-power, fuel-efficient gasoline engines that combine high performance whilst meeting stringent emissions reductions standards. To meet Honda’s demanding performance requirements, Senior Flexonics undertook a rigorous development to ensure the flexible exhaust connectors met the required durability, weight and emissions standards. Manufacturing of these components will be performed at Senior Flexonics’ facilities in India and China and deliveries have recently commenced.

Commenting on the supply contract, Mike Sheppard, CEO of Senior Flexonics, said: “Senior Flexonics is a world leader in developing light-weight, high-performance exhaust components that are enabling global automotive manufacturers to meet demanding efficiency standards and minimise exhaust gases. We are excited about our partnership with Honda and our mutual commitment to customer satisfaction and product quality.”

### **About Senior Flexonics**

Senior Flexonics provides high technology products and systems for demanding applications in land vehicle, power, energy and adjacent markets. Our product portfolio spans a wide range of fluid conveyance and thermal management components / sub-systems as well as complex precision machined parts for conventional and advanced land vehicle propulsion systems, petro-chemical, renewable energy and a variety of other industrial applications. With a global footprint, Senior Flexonics manufactures proprietary designed and build-to-print products for customers around the world that meet today’s challenges and is actively engaged in developing and supplying products and capabilities for a low carbon sustainable future.

### **About Senior**

Senior is an international manufacturing group with operations in 12 countries. It is listed on the main market of the London Stock Exchange (symbol SNR). Senior designs and manufactures high technology components and systems for the principal original equipment manufacturers in the worldwide aerospace & defence, land vehicle and power and energy markets.
